

Comments of a Bon Vivant:

Blackcurrant, blueberry and wild blackberry, round and velvety. Malbec with a Bordeaux accent: try it with herbed pork, mushrooms or blue cheese.

Château de la Grave Les Choses qu'on Aime

Nestled in a 14th-century castle, Château de la Grave is an exceptional addition to the enotri community, offering a stunning collection of Bordeaux wines faithful to the traditions of this celebrated region of France. Guiding principles include respect for the environment, quality control in the vineyards, and vinification and maturing in the pure Bordeaux tradition.

On the banks of the Bourg, the oldest Roman vineyards on the Atlantic coast of France, the estate is well recognized in French wine guides as an emerging star of the region. The Bassereau family blend Sémillon and Colombard in an exquisite white, while the Merlot-dominated reds are spiced with Cabernet Sauvignon and Malbec.

Certification	In conversion to organic

VITICULTURE

Since 1990, Philippe and Valérie Bassereau have run Château de la Grave, mixing tradition and modernity: 45 hectares of vines all around the château, farmed organically and biodynamically, with ploughing, grass cover and no chemical fertilizers or insecticides.

Mostly Malbec, the historic grape of the appellation, from a plot of red gravel whose free-draining soil and small yields give a velvety, intensely fruity wine with an atypical profile. Intense ruby; blackcurrant, blueberry and wild blackberry with delicate oak; round and supple, ending full and suave.

SALES FACTS:

- *Malbec, the historic grape of Bourg*
- *In conversion to organic*
- *A single plot on red gravel*
